

TAKE THE CANVAS CHALLENGE

MASTER THE BASICS OF CANVAS IN ONLY TWO TO FOUR WEEKS

How does it work?

Instructure will provide a Canvas Challenge course template, which you can customize to meet your district's or school's specific training needs. Depending on your state's guidelines, the Challenge may fulfill professional development requirements or count toward relicensure hours.

All you need to get started is a Challenge leader and about 10 Challenge participants. The leader will spend a little extra time providing support and making sure participants complete their assigned tasks—and this may mean additional professional development hours.

Challenge participants attend two brief in-person sessions and complete a series of online tasks. These include a one-hour Kick Off meeting, 10 basic Canvas challenges (about five minutes each) and a one-hour celebratory Show & Tell event.

Then everyone gets a certificate of completion, some Canvas swag and the warm, fuzzy feeling of accomplishment. You can schedule as many Canvas Challenges as you like. Before you know it, everyone at your district or school will “speak Canvas.”

Interested in participating in the challenge? Contact and submit your name and contact info. We'll get back to you with the details.
